

## FACTSHEET

### HORIZON 2020 DESCRIPTION

NOVA.ID.FCT institutional text must be adjusted from project to project, and completed with the specific skills of the research unit that will be involved in the project (**section 4** of H2020 proposals).

<b>Beneficiary - ASSOCIAÇÃO PARA A INOVAÇÃO E DESENVOLVIMENTO DA FCT (NOVAid)</b>
---

Associação para a Inovação e Desenvolvimento da Faculdade de Ciências e Tecnologia da Universidade Nova de Lisboa (NOVA.id) is a private non-profit research organisation dedicated to Research and Development and Innovation (R&D+I) activities, recognised by the Portuguese National System of Science and Technology (SCTN) by Fundação para a Ciência e Tecnologia (FCT).
---

NOVA.id based at FCT NOVA acts as the legal front institution of R&D units, from different scientific fields, carrying out R&D work in research labs and managing financial and administratively R&D&I projects. NOVA.id organises qualified human resources training and consulting expertise, and knowledge dissemination and technology transfer activities.
---

FCT NOVA founded in 1977, is one of the most prestigious Portuguese public schools of science and engineering today, with a total enrolment of 8000 students (Degree, MSc and PhD). The School has achieved extraordinary national relevance for Higher Education on several new programmes, most of them pioneers nationwide. From 2015 to 2019, FCT NOVA published 4.787 papers indexed in ISI Web of Science where has earned recognition by its peers. So far, FCT NOVA has a portfolio of around 50 patent families. This shows the visibility as a higher technical and science school engineering.
---

Currently, NOVA.id has experience in managing circa 3 EU FP7 projects (around 0.53M€) and has already been awarded with 27 projects in H2020 adding up to 13€ million. This shows the visibility and competitiveness of the NOVA.id at European and International level and strong experience in collaborative projects, working with partners from all over the world.
---

These numbers reflect the quality of research carrying out at NOVA.id and the suitability of infrastructures and facilities to develop all R&D&I across all research units recognised by FCT.
---

**NOTE:** If it will participate any human resource from the NOVA School of Science and Technology in the H2020 project proposal through its R&D Unit hosted at NOVA.id, you need to include the third-party figure (in the section 4.2 of project proposal). Please ask it to IRIS Office by e-mail [iris@novaidfct.pt](mailto:iris@novaidfct.pt).

For any queries about the NOVA.ID.FCT description or further information, please contact the IRIS Office.
